5 UNITED STATES DISTRICT COURT  
6 WESTERN DISTRICT OF WASHINGTON  
7 AT SEATTLE

8 ANANAIS ALLEN, *et al.*,

9 Plaintiffs,

10 vs.

11 FLIGHT SERVICES AND SYSTEMS, INC.,

12 Defendant.

Case No. C16-1137RSL

ORDER DENYING MOTIONS FOR  
CONTINUANCE

13  
14 This matter comes before the Court on “Defendant’s Opposed Motion to Modify Briefing  
15 Schedule on Motion for Class Certification” (Dkt. # 22) and “Defendant’s Motion to Continue”  
16 (Dkt. # 27). In both motions, defendant argues that the class certification motion should be  
17 continued because plaintiffs had not yet responded to discovery. Defendant has not identified  
18 any information it hopes to obtain in response to its discovery requests that would justify a  
19 continuance. Defendant, as the employer of all putative class members, is in possession of most  
20 of the factual information that is relevant to the certification issue and makes no effort to show  
21 that any of the interrogatories propounded in April 2017 would shed light on the adequacy of  
22 counsel and/or the class representatives.

23 The motions for a continuance are DENIED. The Clerk of Court is directed to renote  
24 plaintiffs’ motion for class certification (Dkt. # 13) on the Court’s calendar for Friday, August  
25 18, 2017. Defendant’s response, if any, is due on Monday, August 14, 2017.
